

TalkShoe is a service that enables anyone to easily create, join, or listen to Live Interactive Discussions, Conversations, Podcasts and Audioblogs. These hosted Community Calls can be discussions, conversations, talk shows and podcasts. Recorded Community Calls can be listened to, downloaded, or subscribed to.

How It Works

Talkers & Listeners

Friends and associates, as well as the general Internet surfer can find and [join](#) a Live Community Call. It's a great way to connect with people of common interests, and you might even make new friends. You can choose to talk, text-chat, or just listen along.

The powerful TalkShoe Live! *Pro* software provides many unique features including:

- Full Host Control
- Mute voice
- Mute chat
- Start and stop recording
- See-who's-talking indication
- Participant screen names and (optional) profiles
 - Access via telephone, [ShoePhone™](#), Skype, or VoIP
- Request-to-talk queuing
- Integrated text-chat room
 - Up to 250 participants
 - 1,000s more can listen in

Can I play my recording on my blog & website?

Sure. TalkShoe has created a number of widgets that you can easily integrate into your blog, website, Facebook, MySpace page, and more. There's even a single player that lists all of your recorded, upcoming and live shows!

OK, I'm ready to go. What's next?

To start a Community Call, Sign-Up then click the [Create](#) button. There, you'll describe your Community Call, schedule it, and invite anyone you want. You can schedule it in the future, or even right now! When your Community Call goes live (or up to 15 minutes before) you join as the host, and record when you're ready. What makes a good Community Call? Really anything that interests you and you're passionate about. You can also upload existing podcast episodes. And you can also download and edit your recorded Community Calls. If you need some assistance, we recommend you watch our [video demos](#).

I just want to participate or listen.

First, [find](#) a live or recorded Community Call viewing our Community Call Directory, where you'll find all sorts of Community Calls that may interest you.

If you want to [join](#) a Live Community Call, you can just listen in, or we recommend downloading our TalkShoe Live! *Pro* software to begin talking and chatting live. And if you don't find a Community Call you like, why not [create](#) your own!

Want to learn more?

Talkshoe hosts two free training sessions each month that will teach you on how to become a host of your own show!

Find out more at <http://www.talkshoe.com/tc/68996>

Our Support Resource Site at <http://www.talkshoesupport.com> has more than 50 tutorial videos and other various resources that are free to use and obtain.

Some of the resources found here may be trial versions, so a cost may be incurred to obtain a full working copy of these versions of software.

Have Support Issues or Questions?

Every Monday Night at 7:00pm EST, Talkshoe hosts a live support show where actual support reps will take your issues and questions and answer them, live on the air! Join us at <http://www.talkshoe.com/tc/875> or send an e-mail to support@talkshoe.com
